Dear Graham

Fourteen months ago I could not walk the 100 yards from my home to my car without a walking stick, and feeling dizzy and exhausted when I got there.

Today I climbed to the top of Seaford Head – my long held dream, and I felt euphoric! I felt I had conquered the world!

This is not just due to the Alhabiotic alignments although I know this is the foundation on which I am building my improving health, but it is also due to your encouragement, your belief in me, and in the Universal 'Good'/God. Re-reading Neale Donald Walsch, Wayne Dyer and the Hicks' books, which I may not have done without your influence, all these things working together for good

I know I still have a way to go before I reach a sustainable level of health and well being, but I know it will happen...
